Summary

A 2nd-year BS Computer Science student with a proactive approach to building skills in software engineering and cybersecurity. Supplemented academic learning with certifications in Data Structures, Algorithms, and Cybersecurity. Proficient in Python, Java, and database fundamentals, and eager to apply these skills in a practical setting.

Skills
Hard Skills:

- Java, Python, CSS, JavaScript, HTML 5, C++ Arduino, React
- MS Excel, MS PowerApps, VS Code, Docker, Figma
- RDBM, MySQL, Apache, Firebase
- Cisco Packet Tracer, GitHub, Windows, Linux
- OOP, Dynamic Programming

Soft Skills:
- Problem-Solving
- Analytical Thinking
- Collaboration & Teamwork
- Communication
- Time Management
- Adaptability
- Continuous Learning

Certifications
- **Data Structures & Algorithms in Python** – LinkedIn Learning 2025
- **Cybersecurity Fundamentals -** IBM SkillsBuild 2024
- **Advanced Algorithmic Thinking with Python** – LinkedIn Learning 2025
- **Networking Basics -** Cisco 2025

Education

Bachelor of Science in Computer Science Specialization in Cybersecurity and Forensics
Asia Pacific College (APC)
Expected Graduation: 2028
